

[AC Disposal and Recycling New York](#) also in [Brooklyn](#), [Bronx](#), [Manhattan](#)

The day an [air conditioner](#) stops working the way it should is the day you realize that they're very tricky to get rid of. First, they are too heavy to carry, second, too dirty to put in the trunk of your car, and third, because air conditioners are so heavy and dirty, they are potentially dangerous to handle.

Add to this that [AC units](#) contain freon and other refrigerants regulated by the U.S. federal government under the [Clean Air Act](#) and you realize why you rather want to use professional junk removal services to help you say goodbye to these bulky appliances while enjoying the great relief of eco-friendly recycling and donation options.

If you have an old air conditioner sitting around or plan on [replacing](#) your equipment soon, make an appointment with [PTAC Air Conditioning Services](#) in NYC for the fast and safe disposal of your old air conditioner. We'll provide a free estimate and our insured, trained junk removal professionals will pick it up and make sure it's disposed of safely and responsibly. Why Remove an Old Air Conditioner?

Air conditioners tend to wear out slowly — until they break down very suddenly. If your A/C has seen better days, you might need to replace it as soon as possible:
